Chennai, India | Phone: +91 9884263137 | Email: selvavignesh2911@gmail.com

OBJECTIVE

A dedicated B.Tech student pursuing Computer Science Engineering with specialization in Artificial Intelligence and Machine Learning. I have a strong foundation in Python, Data Structures, Machine Learning, and Database Management. I am seeking an internship opportunity where I can apply my technical knowledge, develop practical skills, and contribute positively to the organization.

EDUCATION

B.Tech – CSE (Artificial Intelligence & Machine Learning)	2024 – 2028 (Pursuing)
Vels Institute of Science, Technology & Advanced Studies (VISTAS), Chennai	CGPA: 6.5 / 10

TECHNICAL SKILLS

** All skills listed are at a basic level of proficiency.*

Programming Languages	: Python, C
Machine Learning	: ML Fundamentals, Supervised & Unsupervised Learning
Data Structures	: Arrays, Linked Lists, Stacks, Queues, Trees, Sorting Algorithms
Database	: DBMS Concepts, MySQL
Mathematics	: Differential & Integral Calculus, Probability & Statistics, Vector Algebra, Partial Derivatives, Matrix

RELEVANT COURSEWORK

- | | |
|--------------------------------|-------------------------------|
| • Artificial Intelligence | • Machine Learning |
| • Data Structures & Algorithms | • Probability & Statistics |
| • Linear Algebra | • Database Management Systems |
| • Operating Systems | • Computer Networks |

SOFT SKILLS

- | | |
|-------------------|-----------------------|
| • Problem Solving | • Team Collaboration |
| • Quick Learner | • Analytical Thinking |
| • Communication | • Leadership |
| • Punctual | • Productive |

ACHIEVEMENTS

- Participated in **College Level Hackathon** organized by VISTAS – developed problem-solving and teamwork skills under time constraints.
- Attended **Inter-College Hackathon** – collaborated with students from various colleges to build innovative technical solutions.
- Participated in **Smart India Hackathon (SIH)** – contributed to a national-level government initiative aimed at solving real-world problems through technology.

PROJECTS

Smart Attendance System Using Face Recognition

- Automatically marks attendance by recognising students' faces via webcam.
- Technologies: Python, OpenCV, face_recognition library, NumPy, Pandas.
- Logs timestamped attendance to CSV/Excel; supports new student registration.

AI Resume Screening System

- Analyses uploaded resumes and shortlists candidates based on job requirements.
- Technologies: Python, scikit-learn, NLTK / spaCy, TF-IDF, PyPDF2, Streamlit.
- Ranks candidates by similarity score; interactive web UI for recruiters.

LANGUAGES KNOWN

Tamil (Native) | English (Professional)

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.

Place: Chennai

Date: 31/05/2026
